Corresponding C++ Code:

```
class Parent {
  public:
    void Op1(...);
    void Op2(...);
    void Op3(...);
  protected:
    Comp1* c1;
    Comp2* c2;
    Comp3* c3;
};

class Child1 : public Parent {...}
class Child2 : public Parent {...}
class Child3 : public Parent {...}
```
