### Completeness

1. How complete is the project w.r.t. your original specifications? ______ (estimate % completeness)

2. Which components of the project are reasonably complete (circle all that applies)? (if a component is not required/needed in the project, leave it uncircled)
3. Which components of the system are very much incomplete (only the components that were part of the spec for the cohort)? (circle all).

4. From the point of view of completeness of the project, how well has the project met your expectations? (circle one)

- N/A(0) Not met at all (1) Met only partially (2) Met most (3) Met completely (4) Exceeded (5)

5. Please provide any additional comments concerning the completeness of the project in the space below.
Usability

6. Please evaluate overall usability of the system (circle one):

(0) Not able to evaluate
(1) Unusable
(2) Hard to use, major improvements needed
(3) OK to use, could be improved
(4) Relatively easy to use (only minor improvements needed)
(5) Very user-friendly/usable

7. Please circle any components, whose usability you would like to specifically commend (if any):
