CPE/CSC 480	Artificial Intelligence	Project Evaluation	*Version*
Milestone Week 4: Prototype alpha			*1*

Marks

Development Team	8	0	Maximu *Actual*
Team Members	0		
Topic	0		

Contents Checklist	Important Issues	Comments	
Project Description	purpose, task description, environment, intended users, main goals (similar to Part 1)		10
User Feedback	reactions, criticism, suggestions, etc. from users of the prototype possible design modifications, changes in implementation		10
System Design	overview of the functional parts of the system block diagram, class hierarchy		10
Prototype and Implementation	restrictions in functionality implementation language, development tools instructions for installation and basic use		10
Evaluation Plan	description of evaluation methods detailed instructions for performing the evaluation explicit evaluation criteria (questions, metrics)		10
			10

Presentation and Appearance		
Readability	font size. colors, …	
Understandability	language, vocabulary	
Clarity	logical arrangement, explanations, diagrams, figures, screen shots	
Length	too long, too short	
Credits	other sources, team members	
Pointers	for additional information: email, Web, literature	
Appearance	presenters, material	

Overall Impression
