

CPE/CSC 480 Artificial Intelligence		Project Evaluation	Version 1
Milestone Week 6: Prototype beta			
			Marks
Development Team	8		Maximum <i>Actual</i>
Team Members	0		
Topic	0		
Contents Checklist	Important Issues	Comments	
Overview	current status of the system major changes implications of changes		10
User Feedback	more user feedback based on the most recent prototype		10
Changes System Design	modifications to the system design elimination/addition of functionality changes in data formats and interfaces		10
Prototype and Implementation	additional features implemented in this version bugs eliminated update on appearance, user interface, performance issues		10
Evaluation	issues raised by the evaluation team deviations from the evaluation plan		10
Presentation and Appearance			10
Readability	font size, colors, ...		
Understandability	language, vocabulary		
Clarity	logical arrangement, explanations, diagrams, figures, screen shots		
Length	too long, too short		
Credits	other sources, team members		
Pointers	for additional information: email, Web, literature		
Appearance	presenters, material		
Overall Impression			
		Version Total:	0.00
Current Score:			0.00
