3 /**
4  * Class RecuringInterval specifies the granularity at which recurring items
5  * are defined. Weekly and Biweekly settings allow the user to specify
6  * recurrence on one or more days of the week. The Monthly setting allows the
7  * user to specify recurrence on one or more days in one or more weeks of each
8  * month. The Yearly setting allows the user to specify recurrence on one or
9  * more specific dates in the year.
