  5  /****
  6   *
  7   * A UserRecord is the information stored about a registered user of the
  8   * Calendar Tool.  The Name component is the user's real-world name.  The Id is
  9   * the unique identifier by which the user is known to the Calendar Tool.  The
 10   * EmailAddress is the electronic mail address used by the Calendar Tool to
 11   * contact the user when necessary.  The PhoneNumber is for information
 12   * purposes; it is not used by the Calendar Tool for contacting the user.
 13   *
