9 /**
10  *
11  * Class ConfirmMeetingDialog extends ScheduleAppointmentDialog, , since the
12  * two dialogs have much in common. (This is to be expected given that the
13  * Meeting model class is an extension of the Appointment model class.) The
14  * differences between the meeting and appointment dialogs are as follows:
15  *
16  *                                     <ul><li>
17  *                                     </li><li>
18  *                                     </li></ul>
19  *
20  */
21 public class ConfirmMeetingDialog extends ScheduleAppointmentDialog {
22     public ConfirmMeetingDialog(Screen screen, Schedule schedule,
23         CalendarToolUI calToolUI) {
24         super(screen, schedule, calToolUI);
25     }
26 }
```
