8 /**
9  *
10 * Class OKScheduleTaskButtonListener defines the action listener that is
11 * attached to the OK button in the schedule appointment dialog. When the
12 * class is constructed, it is passed references to the classes that need to be
13 * accessed in the actionPerformed method. In this case, the required classes
14 * are the Schedule model class and the ScheduleTaskDialog view class.
15 *
16 * Access to the model is for calling the scheduleTask method. Access to the
17 * view is for gathering the data values that are sent to scheduleEvent.
18 *
19 */
