/****
 *
 * Class CalendarToolAdministration is the top-level model class for the
 * administrative-user Calendar Tool Administration program.
 * CalendarToolAdmionistratin has references to the functional model classes of
 * the tool: File, Edit, Admin, Options, and Help.  There is also a reference
 * to the CalendarDB class that houses the tool's major data bases.
 *                                                                          <p>
 * Otherwise, CalendarToolAdministration is comparable in function and purpose
 * to the regular-user <a href= "caltool.CalendarTool.html"> CalendarTool </a>
 * top-level class.  See its documentation for further information.
 *                                                                          <p>
