/****
 *
 * Class FileUI is the companion view for the <a href= "File.html"> File </a>
 * model class.  FileUI constructs and composes the File pulldown menu.
 * Standard JFC file and input dialogs used for the File.open, File.saveAs, and
 * File.print commands.  Standard JFC error dialogs are used to report any
 * file-related errors.  Hence, FileUI does not need to define any additional
 * views other than the pulldown menu.
 *
 * @author Gene Fisher (gfisher@calpoly.edu)
