/****
 *
 * A DailyAgenda contains the scheduled item information for a calendar day.
 * At the top of the agenda is the full date for the day of the agenda.  There
 * is a list of event titles containing the events scheduled to occur on this
 * day.  Following the event list is a list of time-tagged descriptors for the
 * scheduled appointments and meetings.  At the end of the agenda is a numbered
 * list of task descriptors for the day's scheduled tasks.
 *
 */
