

CSC 509 Assignment 7: Final Presentation of Class Project

DUE:

Presentation: Per schedule below

Slides: 24 hours before scheduled presentation time

Assignment Work

Present to the class the (nearly) final results of your project. Each presentation is allotted a 30 minute time slot. Plan for approximately 22 minutes of presentation, 5 minutes of questions, and 3 minute of setup time. You may present in the format(s) most suitable to your project, including slides plus, as appropriate, demonstrations of working aspects of your project.

The following is the presentation time table for the 10th week of class and Monday of finals week

Deliverables

24 hours before your presentation in class, post your slides and any additional supporting material you may have. The additional supporting material is optional. See the instructions at the wiki site for details of the posting procedure. The procedure is very much the same as for other posts you've done there.
