```java
package rolodex;

class Main2 {
    public static Integer i = new Integer(10);
    public static void main(String args[]) {
        if (i == null) System.out.println("Yes");
        else System.out.println("No");
        System.out.println(i.intValue());
    }
}
```
