

Chapter 4 Key Points

Definition of "Intellectual Property"

Why is it given legal protection?

How is it different from physical property?

What, exactly, is protected? What do we buy?

What can't and can be protected?

What rights are granted to copyright holder?

What are technological threats to IP?

What is "fair use" and the four factors?

Who are stakeholders on each side?

Who wants stricter laws? looser?

What is the "tension" in this issue?

What are some important cases in history of copyright law?
