This course covers the following topics:

- Propositional and predicate logic
- Proof techniques
- Sets, relations, and functions
- Sequences and summations
- Recursive definitions
- Introductory algorithm analysis
- Introductory combinatorics
- Graphs and trees

Instructor: Christopher Siu, cesiu@calpoly.edu

Lectures: Section 01: TR, 7:10am–9:00am, Erhart Agriculture (010–225)

Office Hours: MWF, 3:10pm–4:30pm, TR, 9:10am–1:00pm, Computer Science (014–240)

Course Website: You will find all course information on PolyLearn.

Supplementary Texts:

Grade Breakdown:

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework (2)</td>
<td>2%</td>
<td>A 92%</td>
</tr>
<tr>
<td>each</td>
<td>1%</td>
<td>B 82%</td>
</tr>
<tr>
<td>Quizzes (8)</td>
<td>35%</td>
<td>C 72%</td>
</tr>
<tr>
<td>each (1 dropped)</td>
<td>5%</td>
<td>D 60%</td>
</tr>
<tr>
<td>Midterm Exam</td>
<td>30%</td>
<td>F below 60%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>33%</td>
<td>-plus and -minus grades at 2% offsets.</td>
</tr>
</tbody>
</table>

Rounding done on a case-by-case basis.

Homework: You will be given homework from the textbook, due in-class at the beginning of class before each exam. Your homework will be graded only for effort and completion, not for correctness. There will be no late homework accepted.

Quizzes: There will be a quiz given at the beginning of class each Thursday, beginning with the second full week of instruction, except when there is a midterm given or an academic holiday. Quiz problems will be taken directly from the homework — if you attend lecture and complete the homework, you can expect to do well on the quizzes. There will be no make-up quizzes. Your lowest quiz score will be dropped.
Important Dates:

- Midterm Exam: Thursday, May 9th (in class)
- Final Exam: Thursday, June 13th, 7:10am–9:00am
- No Class:
  - Tuesday, May 28th

Who to Contact:
Contact your fellow students if you have missed class and want to know what was covered; I will not reiterate lectures if you miss class. Contact me with all other questions, including any questions about grading.

Students with Disabilities:
If you have a disability for which you are or may be requesting an accommodation, you are encouraged to contact both your instructor and the Disability Resource Center, Building 124, Room 119, at (805) 756–1395, as early as possible in the term.

Classroom Etiquette:
You are free to use computers, tablets, phones, or other electronic devices in the classroom, except during quizzes and exams. However, out of respect for your classmates, please silence your devices and consider sitting in the back. If I feel that you are distracting your classmates, I may ask you to put away your device(s).

Attendance:
Attendance is always expected but only required on days when a quiz or an exam is given.

Academic Integrity:
The university does not condone academic cheating or plagiarism in any form. Students are expected to behave in accordance with the university’s expectations. I encourage you to collaborate in your homework assignments; however, exams and quizzes must be solitary efforts. Cheating requires, at minimum, a grade of ‘F’ given for the assignment, exam, or task.

\[1\] Portions of this course adapted from material by Dr. Theresa Migler-VonDollen, Dr. Ignatios Vakalis, and Paul Hatalsky.
